Chris's COSMETIC CORNER

Why should I consider JUVÉDERM VOLBELLA® XC?

As we age, it is not uncommon to develop fine or deep lines around the mouth due to genetics, sun damage, or other factors. JUVÉDERM VOLBELLA XC is an [injectable filler](#) that is specifically designed to soften those lines and add subtle plumpness to the lips.

VOLBELLA XC delivers beautiful, natural results with a mild recovery process that may include bruising and swelling. To experience the results for yourself, give us a call us at (925) 685-4533.

NOW FEATURING:
PCA SKIN®
ENZYMATIC FACIAL

Attention, all pregnant and nursing moms!

We have an exciting new facial treatment that is designed with you all in mind. The PCA SKIN Enzymatic Facial targets your unique skin care issues, such as dehydration. It's made with all natural ingredients, such as botanicals and enzymes, which rids your skin of pollutants and toxins.

This facial treatment will leave your skin feeling smoother and looking clearer and brighter. Plus, all of the ingredients are safe to use during pregnancy and breastfeeding.

It's time to do something for yourself! Call (925) 685-4533 today to book your appointment with Linda at our MSpa.
